

FREED e-mail bulletin No. 2, March 2018

Welcome to the second e-mail bulletin of the FREED project! FREED supports SME's to realise their energy innovations and is funded under the EU Northern Periphery and Arctic Programme 2014 - 2020.

Every month one of the FREED supported Energy Technology Innovations will be presented in the e-bulletin!

Two years of research and innovation and one still left for FREED Project. Check out our last Newsletter! [HERE](#)

In the frame of FREED Project, Limerick Institute of Technology supported the SOLO ENERGY's FlexiGrid platform: an integrated solar energy and storage system solution.

Solo Energy innovative energy system will be presented on 28th March 2018 in Nenagh. Read the report about the main milestones achieved! [HERE](#)

FREED Partners will meet for their IV Partners Meeting in Ireland at the end of March 2018. Two site visits will take place to see the innovative energy solutions supported by FREED Project in Ireland. Limerick Institute of Technology and Western Development Commission will present their supported innovations by Solo Energy in Nenagh and Pro Air in Galway.
